

Policy on Assessment

1 Introduction

- 1.1 We believe that effective assessment provides information to improve teaching and learning. To do this in our school, we undertake two different but complementary types of assessment: assessment for learning and assessment of learning.
- 1.2 Assessment for learning, (formative assessment, involves the use of assessment in the classroom to raise pupil achievement. It is based on the idea that pupils will improve most if they understand the aim of their learning, where they are in relation to this aim, and how they can achieve this aim.
- 1.3 Assessment of learning, summative assessment, involves judging pupils' performance against national standards. Teachers may make these judgements at the end of a unit of work, of a year, or of a key stage. Year 2 and Year 6 test results will continue to describe pupil performance, in terms of levels.
- 1.4 We give our children regular feedback on their learning so that they understand what it is that they need to do better. Research has shown that their involvement in the review process raises standards, and that it empowers pupils to take action towards improving their performance.

2 Objectives

- 2.1 The objectives of assessment in our school are:
 - to enable our children to demonstrate what they know, understand and can do in their work;
 - to help our children recognise the standards to aim for, and to understand what they need to do next to improve their work;
 - to allow teachers to plan work that accurately reflects the needs of each child;
 - to provide regular information for parents that enables them to support their child's learning;
 - to provide the headteacher and governors with information that allows them to make judgements about the effectiveness of the school.

3 Planning for assessment

- 3.1 We use our school's curriculum plan to guide our teaching. In this plan, we give details of what is to be taught to each year group and we also identify opportunities for assessment within each broad unit of work.
- 3.2 To support our teaching, we use the new National Curriculum which became statutory in September 2014
- 3.3 We plan our lessons with clear learning objectives. We base these upon the teacher's detailed knowledge of each child. We strive to ensure that all tasks set are appropriate to each child's ability. Our lesson plans make clear the expected outcomes for each lesson.
- 3.4 Teachers always share the lesson's learning objective with the children as the lesson begins. They also indicate the way in which the activity is linked to the learning objective, and the criteria against which the work will be judged.
- 3.5 Teachers ask well phrased questions and analyse pupils' responses to find out what they know, understand and can do, and to reveal their misconceptions.

- 3.6 We make a note of those individual children who do not achieve the expected learning outcome for the lesson, and we use this information when planning for the next lesson. We also keep this information as a record of the progress made by the class.

4 Target-setting

- 4.1 We set personal targets in mathematics, reading and writing for all of our children, during each academic year. We discuss individual targets where necessary, and communicate these to parents. We review the progress of each child at the end of each term, and set revised targets.
- 4.2 We also set targets for other areas of work in school. We encourage the children to set targets themselves, linked to their individual working habits. The teacher reviews these with each child on a regular basis.
- 4.3 We ask our older children to review their targets with fellow pupils, because we believe that this encourages them to work together and share evidence of progress. We encourage the children to involve their parents in this process.

5 Recording

- 5.1 We recognise various methods of assessing a child's learning. The type of assessment that we make varies from subject to subject. We find it unnecessary to keep a formal record of all these assessments; we record only the information that affects future learning.
- 5.2 On our planning sheets, we record only those pupils who fail to meet the planned learning objective, or who achieve more than was planned, so that we can take the needs of these pupils into account when planning for the next lesson. Where the majority of the class makes the planned progress, there is, of course, no need to record this, and we use our annotated lesson plans as a record of progress measured against learning objectives.
- 5.3 We take the objectives for individual lessons from the broad learning objectives within the school's curriculum plan. These in turn reflect the demands of the National Curriculum. Our teachers record the progress of each child against these broad objectives. This enables them to make a judgement about the work of each child in relation to the new National Curriculum. This allows us to monitor the progress of each child. Each teacher passes this information on to the next teacher at the end of each year.

6 Reporting to parents

- 6.1 We have a range of strategies that keep parents fully informed of their child's progress in school. We encourage parents to contact the school if they have concerns about any aspect of their child's work.
- 6.2 Each term, we offer parents the opportunity to meet their child's teacher. At the first meeting of the school year, we review the targets that we have identified for their child. At the second meeting of the year which we hold at the end of the spring term, we evaluate their child's progress as measured against the targets. At the third meeting of the year, we review their child's written report and the targets identified in it for the next school year.
- 6.3 During the summer term, we give all parents a written report of their child's progress and achievements during the year. In this report, we also identify target areas for the next school year. We write individual comments on all subjects of the National Curriculum, and on religious education. On the form attached to this written report, we reserve a space for

children to give their own evaluation of their performance during the year and on the form we also include a space for parental feedback.

- 6.4 In reports for pupils in Years 2 to 6, we also provide details of the levels achieved in the national assessments.
- 6.5 We offer parents of pupils in the Foundation Stage the opportunity to discuss their child's Learning Profile with the teacher.
- 6.6 At the start of a term, each of our teachers gives parents an update that identifies the main areas of study for that particular class. In this update, the teacher identifies how parents can support any elements of the work during the rest of the term.

7 Feedback to pupils

- 7.1 We believe that feedback to pupils is very important, as it tells them how well they have done, and what they need to do next in order to improve their work. We have an agreed policy for marking and feedback as this ensures that we all mark in the same way, and the children learn to understand it.
- 7.2 We give children verbal feedback on their work whenever possible. We usually do this when the children are working during the lesson, although we sometimes give feedback on a particular lesson at the beginning of the next one. When lesson time does not allow for verbal feedback, we write comments on the children's work during marking. We give written comments to children of all ages. We do not always aim these comments at the children; quite often we write something that is useful to both parents and teachers.
- 7.3 When we give written feedback to a child, we relate this to the learning objective for the lesson. We make clear whether the objective has been met, and we produce evidence to support our judgement. If we consider that the objective has not been met, we make it clear why we think so. In either case, we identify what the child needs to do in order to produce even better work in the future.
- 7.4 Teachers give pupils feedback which confirms they are on the right track, and which encourages them to make an improvement. Teachers give pupils suggestions as guidance but they recognise that pupils gain most when they think things through for themselves.
- 7.5 Having children assess their own or each other's work can be very effective, because it enables them to clarify their ideas on progressing to the next step, but this must be carefully managed, to avoid unhelpful comparisons. Teachers always mark the work themselves afterwards.

8 Inclusion and assessment for learning

- 8.1 Our school aims to be an inclusive school. We actively seek to remove the barriers to learning and participation that can hinder or exclude individual pupils, or groups of pupils.
- 8.2 We achieve educational inclusion by continually reviewing what we do, by monitoring data, and through asking ourselves questions about the performance of these individuals and groups of pupils. In this way, we make judgements about how successful we are being at promoting racial and gender equality, and including pupils with disabilities or special educational needs.

9 Moderation of standards

- 9.1 All subject leaders study examples of children's work within their subject area. Subject leaders may use national exemplification materials to make judgements about the children's work. All of our teachers discuss these judgements, so that they have a common understanding of the expectations in each subject. By doing this, we ensure that we make consistent judgements about standards in the school.

10 Monitoring and review

- 10.1 Our subject leaders and our Headteacher are responsible for monitoring the implementation of this policy. They inspect samples of children's work, and observe the policy being implemented in the classrooms.
- 10.2 This policy will be reviewed in line with our non-statutory review cycle.

Approved July 2023

Date to be reviewed July 2026
